DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-6, 8-17, 19-20, 22, 24, 26-29 (renumbered 1-23) are allowed.

2. The following is an examiner's statement of reasons for allowance:

Kashiwagi discloses a method of recording an encoded bit stream, said encoded bit stream representing a plurality of video objects comprising a sequence of cells together constituting a part of an MPEG2 Program Stream, on a disc like record carrier, such as an optical disc, said method comprising: Recording a collection of contiguously arranged video objects in a video object storage area of said disc (Column 61 lines 51-57 describes the collection of contiguously arranged in a video object storage area); Recording management information in a management information area of said disc for storing information about recording video objects (Figure 22 and further described in Column 19 lines 64+ through Column 20 Lines 1-12); however, the prior art of record fails to disclose, suggest, or teach, the following limitation:

“defining a free space title that represents free space that is available on the disc within the video object storage area and including the free space title in the title list and in the playable title, creating two titles for the recording, the two titles including a full title and a play list title, and tagging as free space both the full title and the play list title when a full title is deleted”.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2621

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
